

Block 5 Harcourt Centre, Harcourt Rd.

PROJECT OVERVIEW

Situated in the heart of the thriving Dublin 2 business district, Harcourt Centre sets a new standard in European office development.

The eight storey office development over basement car park, sub-basement archives and plantroom altogether occupies almost 27,000 m². The site provides a unique retail space of 2,200 m² created from the vaulted substructure of the former Harcourt Street Railway Terminus.

Full Mechanical Services Package was installed including LPHW Heating System, Cooling System, Water, Waste, Ventilation & BMS Controls.

Our experienced teams worked to deliver a high quality finish to tight programme ensuring a seamless first day of business for our clients.
