

Linn Dara Child & Adolescent Mental Health Centre, Dublin.

Client: Health Services Executive HSE
Main Contractor: Duggan Brothers Contractors Ltd

This project in the grounds of an existing live hospital campus involved the construction of a new 1 & 2 storey building incorporating two self-contained inpatient units, treatment and educational facilities and multi-purpose hall, with associated administration and utility areas, on the grounds of the existing Cherry orchard Hospital Campus.

The use of the building will be for short-term stay assessment and treatment of mental health, for children and adolescents.

Mechanical Services included new gas and water incoming services; central heating centre installation, soils and wastes, water services, air conditioning and ventilation, heating services and protective services installations. It included utility connections from perimeters of the Cherry Orchard campus.
