

National Indoor Arena Phase 1 – Award Winning

Client: National Sports Campus Development Authority, National Sports Campus, Dublin 15
 Consultant: JV Tierney
 Main Contractor: Buckingham Group

The Sport Ireland National Indoor Arena is the new flagship facility at the National Sports Campus. This fully accessible, multi-sport and multi-purpose arena is the newest of its kind in Europe. Built to the highest world class standards and specifications, it will ensure that Ireland has the best facility for indoor sport and events, which can be used Irish sporting bodies, high performance athletes and the general public.

The overall facility is split into 3 smaller Arenas:

National Indoor Training Centre (NITC)

- Multi use sports hall
- Bleacher seating for approx. 1500 spectators
- Changing rooms
- Café
- Kitchen facilities and storage
- Building energy centre
- Conference suites

National Indoor Athletics Training Centre (NIATC)

- IAAF Compliant banked hydraulic track, six-lane 200m and 5-lane 110m sprint tracks, an in-field event area
- Fixed seating for approximately 400 spectators
- Storage, Media workrooms, Commentators room
- Timing and official's rooms
- First aid room
- Management / administration offices

National Gymnastics Training Centre (NGTC)

- Gymnastics hall
- Changing rooms
- Viewing gallery
- Press offices
- Ancillary offices

The building is designed to hold a range of events from junior and club level, through to regional and international sports events, whilst also catering for concerts, equestrian, exhibitions and conferences.
